**Subject: Nevada Medication Assistance Program New Pharmacy Network**

Dear First Name and Last Name:

You are receiving this letter because you are currently enrolled or have been enrolled in the Nevada Medication Assistance Program (NMAP). NMAP pays for the cost of your health insurance premium and/or the costs of your medications.

Effective January 1, 2021 NMAP has a new pharmacy network. This pharmacy network will allow you to pick up your medications at any Walgreens pharmacy location **OR** have your medications delivered to you at your Nevada residence.  

After April 1, 2021, if you would like to continue receiving NMAP assistance, you should begin using a pharmacy in the new Walgreens pharmacy network. 

**IMPORTANT INSTRUCTIONS**

**What Do I Need to Do?**

To pick up your medications at the new Walgreens pharmacy network, you must have your prescriptions transferred to the Walgreens Pharmacy network.

**How Do I Transfer My Prescriptions to the Walgreens Pharmacy Network?**

To transfer your prescriptions from your current pharmacy to a Walgreens pharmacy, you can request that your current pharmacy transfer your prescriptions or you can ask your doctor to send an electronic prescription (Escribe) to one of the two Walgreens locations listed below. After your prescription has successfully been transferred to the Community, Walgreens Specialty RX transfer site, you will receive a call from a Walgreens representative. The Walgreens representative will assist in setting your medications up for free shipping via FedEx (delivery to your home) or they can arrange for you to pick-up your medications at any Walgreens pharmacy of your choice.

You should have your prescription transferred to one of the pharmacies in the new pharmacy network by December 31, 2020. Instructions on how to transfer your prescriptions is on page 1 of this letter.**

### Helpful Information About NMAP

NMAP pays for the cost of your insurance premium and the costs of your medications. To continue to access NMAP services on or after April 1, 2021, your prescriptions must be filled thru a NMAP Walgreens Pharmacy network. *(All locations can be found on the last page of this letter.)*

If you choose to use a pharmacy that is not part of NMAP's Walgreens Pharmacy network, you will be opting out of your enrollment and services of NMAP. Opting out of the program means that NMAP will no longer pay for your insurance premiums or the costs of your medications.  

If you have additional question regarding NMAP's Walgreens Pharmacy Network, prescription transfers, and/or NMAP eligibility, please contact one of the following:
